

THE LEADING E-PROCUREMENT SYSTEM FOR THE HOSPITALITY INDUSTRY. DELIVERING CLEAR TIME AND COST SAVINGS FROM PURCHASING TO PAYMENT.

epsys has been providing e-procurement solutions since 2001. Initially developed to address the particular procurement challenges of the **hospitality and catering industry**, epsys has grown to become a comprehensive e-procurement system that can deliver operational efficiency and cost savings across a diverse range of businesses.

EPSYS IN ACTION

Benefitting from 20 years of specialist experience in procurement, epsys is able to deliver efficiencies across your entire buying cycle.

WHY EPSYS

In a competitive and dynamic sector with a choice of e-procurement systems available, prospective clients may ask why they should choose epsys. We believe the choice is clear:

MARKET LEADING

Designed specifically to cope with the complexities of the hospitality industry, the technology and service provided by epsys have made it the market leader.

USER FRIENDLY

Intuitive online interface puts powerful procurement tools at your fingertips with the simplicity and ease of use of a website.

ADAPTABLE

epsys is flexible enough to suit any business and adaptable enough to easily accommodate changes such as adding new suppliers, or amending/approving negotiated price files.

AFFORDABLE

As well as requiring no hardware investment and delivering huge cost-savings, epsys can be provided and maintained for remarkably low fees.

SUPPORTIVE

With telephone support, regular client meetings and 24/7/365 system monitoring, epsys offers a wholly managed service that our clients know they can rely on.

STREAMLINED BUYING PROCESS

Standardises and automates, minimising the workload associated with processing multiple transactions and managing numerous suppliers.

REDUCED COSTS

Saves administrative time and manages supplier pricing, with no significant investment necessary.

FINANCE SYSTEM INTEGRATION

Seamlessly integrates with existing accounting and management systems.

MANAGEMENT VISIBILITY

Full order to pay transparency with intuitive real-time reporting and analysis to help drive operational improvement.

ERROR DETECTION

Reduced administrative errors through proven business processes, plus line by line invoice checking to identify errors and raise credit requests.

FLEXIBLE IMPLEMENTATION

Customisable to suit every type of purchasing activity from catering to housekeeping, grounds maintenance to utilities across multiple sites if required.

RELIABLE PERFORMANCE

Zero maintenance, fully hosted solution with no hardware needs, helpdesk support and 24/7/365 monitoring to ensure 100% up-time.

SECURE ENVIRONMENT

Your data is safe - meets all industry standards on security and confidentiality to ensure peace of mind.
